

KCC Spring Newsletter 2018

It's that time again,
allergy season

Did you know routine chiropractic adjustments can help with your allergies?

Misalignment or dysfunctional movements of vertebra can cause a focal irritation in the spine, which then creates an abnormal signal received by the central nervous system. When this aberrant signal occurs along the same pathway required for the input of normal environmental messages, the body may not interrupt the information correctly. When this occurs, an allergic reaction can result. If you or someone you know suffers from allergies, invite them in to visit one of our two amazing Doctors of Chiropractic and Receive a FREE 30min massage.

Welcome to the Team!

We're so excited to introduce Dr. Bobby Maybee and Kelly Murphy!!

Dr. Bobby's treatment philosophy is somewhat progressive in nature. He Values the power of communication and assessment with patients to

meet each of their individual goals. Filtering this through the latest evidence in treatments and rehab interventions guarantees that each patients approach to treatment is individualized to their needs, while bringing sense of humor and humility to the process.

Invite your friends for Free Consultations and receive FREE 30min massage!

Kelly Murphy LMT/ CCA

You might have seen this friendly face around lately... Kelly comes to KCC as a newly licensed massage therapist from Carrington College with over 14 years in the medical field. Kelly specializes in trigger point, deep tissue, myofascial release and much more. Recently engaged, loves to travel, yoga and meditate. Schedule your massage today!
