

May 24, 2019

Dear Business Owner:

We need your help. As you know the business community in our beautiful South Portland/ John's Landing area is facing unprecedented challenges. The combination of untreated drug addiction and mental illness has caused an enormous and growing problem with people living in unconscionable squalor, and destroying the beauty and safety of our community. Theft crimes go largely unpunished and our police are understaffed. Traffic gridlock continues to grow worse. It has become increasingly difficult for our employees and customers to find places to park. Our local and state business taxes are dramatically increasing without any corresponding benefit to business.

All of these challenges could be addressed and solved by our local and state governments. Unfortunately, no single person or business has the clout to affect the needed change. We need to work together and speak with one loud voice.

The missions of your South Portland Business Association are:

- To serve as the voice of our businesses in dealing with state and local governments;
- To monitor developments and provide current information to our business community;
- To provide business-to-business networking to foster trade within our business community, and;
- To promote the image and reputation of our community and our businesses.

Please help us to succeed by being an active member of SPBA. Together we can overcome these challenges.

Sincerely,

Richard Rizk
President, SPBA
